

## SIRIS Intelligent Business Continuity for Offshore Marine Services

**“We feel confident that Datto SIRIS is the best solution for us, especially having seen how fast the restore process is in the case of a disaster”**

Daniela Ladjevac  
Operations Manager  
Offshore Marine Services

Offshore Marine Services are one of the world’s leading providers of offshore drilling and marine personnel to the oil and gas industry.

OMS is part of an international group of companies with offices strategically positioned in Australia, New Zealand, United Kingdom, Malta, United Arab Emirates and Singapore, the company to offer a global solution to the industry’s manning and marine requirements.

Offshore Marine Services is part of SKILLED Group Ltd, a publicly listed company on the Australian Stock Exchange. SKILLED Group is the largest labour hire company in Australia and employs over 27,000 employees around the world.

### Challenge

To reduce time spent on outdated Tape Backup and ensure the business has the ability to continue to operate following a disaster including hardware failure and a total loss at the primary site.

To achieve these goals while reducing total cost of ownership of current solution, both in monetary terms and man-hours spent.

### Solution

Datto SIRIS S1000 Appliance with replication to Datto UK Cloud.

### Outcome

A business that knows it can rely on its IT systems to be available to them even through the worst imaginable disaster.
